AER stands for Annual Equivalent Rate and illustrates what the interest rate would be if interest was paid and added each year, and has been rounded to 2 decimal places. Gross interest is the rate payable to you without the deduction of tax at the rate specified by law. We will not take tax off the interest you earn. It is your responsibility to declare any interest you earn directly with HMRC. The receipt of interest gross by a company will not prevent that interest from being liable to corporate tax. Variable interest rates may be subject to change.
